

Cre8 Associates Limited 10th Anniversary Year

Newsletter February 2014

A few milestones this month. We have delivered our 200th Start safe II battery isolation system and our 50th. Shield Safe system.

Start safe II – A secondary battery isolation system, allowing assured starting of the vehicle by automatic isolation of a secondary battery. Available in a number of variants to fit vehicles where starting is essential for operations, the system has low current drain and operates in extreme temperatures.

Shield Safe - Cre8 Associates Shield Safe system reaches 50 systems deployed in Afghanistan. Specifically designed to bypass the LC 200 start systems and ensuring the vehicle starts in all environments.

Congratulations to the team on their efforts on these projects. Full product details available on the website.

Our technical Director, Carl Weaver, celebrates his 50th birthday. Congratulations Carl from all your colleagues.

Visiting International Armoured Vehicle Show, Tuesday 5th, looking forward to the exhibition and meeting acquaintance's old and new.

The Cre8 Field Service team is deployed to Afghanistan mid-month fitting our products, upgrading systems and doing essential maintenance for our customers. Safe journey guys
